PROFESSIONAL SUMMARY

Detail-oriented and tech-savvy Information Systems student (GPA 4.00) with extensive experience in web technology and data logic. Native Indonesian speaker with strong English proficiency. Possess a deep understanding of internet search behaviors, user intent analysis, and online research through practical experience as a Full Stack Developer. Highly disciplined freelancer seeking to leverage technical knowledge and cultural awareness as a Search Quality Rater.

CORE COMPETENCIES

- Search & Research: Advanced Web Search Techniques, Information Verification, User Intent Analysis.
- Languages: Indonesian (Native), English (Professional Working Proficiency).
- Technical & Data: Python (Pandas/NumPy), SQL, Algorithm Logic, Quality Assurance (QA).
- Soft Skills: Critical Thinking, Adaptability, Time Management, Cultural Awareness (Indonesia Trends).

PROFESSIONAL EXPERIENCE

Dec 2024 – Present

Freelance Web Developer & Tech Consultant | Remote / Self-Employed

- Research & Analysis: Conducted extensive online research to troubleshoot complex technical issues and identify best practices for web performance, demonstrating strong information retrieval skills.
- User Intent Understanding: Analyzed client requirements to build intuitive user interfaces, ensuring the final output matched the user's specific needs and search behaviors.
- Quality Assurance: Performed rigorous testing on applications (SRB Motor V2, Tunggal Jaya Transport) to ensure data accuracy, functionality, and bug-free user experiences.
- Data Management: Managed complex databases and integrated payment gateways, requiring high attention to detail and security compliance.

KEY PROJECTS

SRB Motor V2 (Dealer Management System) | Nov 2025 – Dec 2025

- Developed a comprehensive system for motorcycle dealer operations, requiring deep understanding of local business processes and data categorization.
- Designed interactive dashboards for data visualization, showcasing the ability to interpret and present **complex information clearly.**

Tunggal Jaya Transport (Ticketing System) | Sept 2025 – Dec 2025

- Created a real-time booking platform with strict logic for seat selection and transaction verification (OTP), demonstrating logic capabilities relevant to search evaluation rules.

EDUCATION

Bachelor of Information Systems | Universitas Bina Sarana Informatika

Sept 2024 – Present

- GPA: 4.00 / 4.00
- Relevant Coursework: Database Systems, Logic & Algorithms, System Analysis.

ADDITIONAL INFORMATION

- Technical Setup: Reliable High-Speed Internet, Personal Laptop with Anti-Virus protection, capable of handling data-intensive tasks.
- Availability: Flexible schedule (10-20 hours/week) and ready to start immediately.
